

Case Study

Module 10: The Lower Mississippi

Study Questions

1. For the Lower Mississippi Valley (LMV), describe the matrix that existed prior to European settlement.
2. Describe the current matrix in the LMV and how it came to be.
3. How has the conversion from the BLH forest matrix to this agricultural matrix affected the landscape and wildlife?
4. Identify the planning considerations you need to discuss with the landowner in order to help her make decisions about her role in helping conserve regional biodiversity in the LMV.
